808 784-1260  
FAX 608 782-3711

April 14, 1994

**Best Program**

**Vice President**

Bruce Anderson  
The Trane Company  
600 Pammel Creek Road  
La Crosse, WI 54601-7599  
808 787-2305  
FAX 608 787-4321

Our first mini-tech session was a great success. Twenty-four people attended the session. Our thanks to Don Eppleheimer for sharing his time and expertise.

It was great to see a large attendance for our January meeting. It was our first joint meeting with the International Maintenance Institute (IMI).

**Treasurer**

Mike Byars  
The Trane Company  
600 Pammel Creek Road  
La Crosse, WI 54601-7599  
808 787-2885  
FAX 608 787-2204

Our February meeting carries an international theme. Bill O'Connor has worked for years to help The Trane Company expand its overseas presence. We do live in a global market. I was reading somewhere that Germany and Japan have recognized that the market demand for products and processes which are environmentally superior is rapidly escalating throughout the world. They have spent at least \$500 million and \$1 billion a year, respectively, on R&D for environmentally critical technologies and products that do not meet the new "green" criteria.

**Secretary**

Bob Percy  
Temperature Equipment Co.  
La Crosse, WI 54601  
808 788-4608  
FAX 608 788-7175

I hope you can make our February meeting. Don't forget about Valentines Day either. Here's something to chew on: Of the nearly 6,000 bills and joint resolutions Congress introduced in 1993, only 3.5 percent became law.

**Board of Governors**

Don Eppelheimer  
The Trane Company  
600 Pammel Creek Road

## GRADES OF MEMBERSHIP

Following are the grades of membership in the national organization along with the qualifications required for each grade.

1. **Honorary** - Any notable person of prominent professional distinction may be elected as an honorary member.
2. **Presidential** - Outgoing national society presidents.
3. **Life** - Any individual who has attained 30 years of membership in ASHRAE and who reaches 65 years of age. This grade is automatically established by Headquarters each year and the individuals are contacted by Headquarters with notification to the Chapters. This is a dues exempt grade with full membership privileges.
4. **Fellow** - One who has attained unusual distinction in the arts relating to the sciences of heating, refrigeration, air conditioning or ventilation, or the allied arts and sciences, or in the teaching of major courses in said arts and sciences, or who by reason of invention, research, original work, or an engineering executive on projects of unusual or important scope, has made substantial contribution to said arts and sciences, and who has attained the age of 45 years, and has been in good standing as a member for a period of at least 10 years prior to the date of his proposal for fellow grade.
5. **Retiree** - An individual is eligible for this grade if he/she has been a member of ASHRAE for at least 15 years, has reached the age of 60 and who is retired from "active participation in business". Special request must be made by the individual directly to the Manager of Membership who will determine eligibility and make the appropriate adjustments. Retiree members do not receive the yearly Handbook but continue to receive the monthly Journal and other mailings.
6. **Member** - At the time of admission or advancement, a member shall have the equivalent of 12 society-accredited years of experience composed of any combination of: (1) approved completed education beyond high school; (2) work experience; and (3) engineering registration. All technical and scientific education shall be based on curricula accredited by the Accreditation Board for Engineering and Technology or approved by the Board of Directors. Each year of completed education for graduates of such approved curricula shall receive 1-1/2 year's credit toward the 12 years required. Each year of approved education for non-graduates of such approved curricula who complete at least 2 years, and graduates of technical schools not so approved, shall receive 1 year's credit for each academic year completed. At least 4 years of the qualifying work experience shall have been in the performance of duties in ASHRAE related field, as verified by the applicant's references, within universities, government, private industry, consulting engineering groups, associations and professional organizations, involving the independent conduct of: research, teaching, design, installation, management or engineering sales. A professional registration or license issued by a legally authorized body in engineering or related fields whose requirements as to education and active practice are considered satisfactory and adequate by the Board of Directors shall entitle the applicant to 3 Society accredited years toward the 12 required.
7. **Associate** - At the time of admission or advancement to the grade, an associate member shall be either a graduate of an engineering curriculum accredited by the Accreditation Board for Engineering and Technology or approved by the Board of Directors, or have the equivalent of 8 Society-accredited years of experience composed of an approved combination of completed education and/or work experience.

8. **Affiliate** - An affiliate shall have had experience in technical matters, design, operation, or maintenance in heating, refrigerating, air-conditioning, or ventilating fields, or shall have an interest in the advancement of the Society's aims, and shall possess sufficient qualifications to cooperate with heating, refrigerating, air-conditioning, or ventilating engineers in the advancement of the knowledge relating to heating, refrigerating, air-conditioning, or ventilating engineering and their application.
  
9. **Student** - A student member shall be a person matriculated in an approved course of study in a university, college, junior college, or technical institute, who is being educated in the arts and sciences covered by the objectives of the Society. Specific requirements with respect to age, full-time student status, part-time student status, certification of student status, sponsorship by Society members, and other appropriate criteria shall be established, and revised as the need arises, by the Board of Directors. Student member status shall terminate one year after graduation from the school, or one year after the time the Student member leaves school.

1994 -1995 Programs  
For  
La Crosse Chapter of ASHRAE

## September 7

Theme: Membership Day  
Program: Partnering with Utilities  
Speaker: Mike Gregerson, NSP  
Location: Trane Technology Center

## October 11

Theme: ASHRAE Research/Membership  
Program: HVAC in Russia  
Speaker: Oscar Brandser, NSP  
Location: Reuben Trane Building

## November 8

Theme: Student Outreach  
Program: Understanding IAQ  
Speaker: Dennis Stanke, Trane  
Location: WWTC

## December 6

Theme: Christmas Party  
Program: Advancements In Home Systems  
Speaker: Greg Mitchel, Sound World  
Location: Baus Haus

## January 10

Theme: Research Promotion/Refrigeration  
Program: History of CenTraVac Chiller  
Speaker: Bill Landman, Trane  
Location: Trane

## February 14

Theme: Refrigeration/History  
Program: Supermarket Ref.  
Tour of Supermarket  
Speaker: Nick May, Ref. Spec.  
Location: NSP

## March 14 & 22

Theme: TEGA(14th)/Student Outreach (22nd)  
Program: Being an Expert Witness  
Speaker: Roger Clark, Attorney  
Location: Trane Credit Union

## April 11

Theme: ASHRAE Research/Membership  
Program: Building Energy Optimization  
Speaker: Jack Wilfong, Chippewa Valley Tech.  
Location: WWTC

## May 9

Theme: Research/Awards  
Program: Energy Availability Outlook  
Speaker: Video from ASHRAE Annual Mtg  
Location: Trane

March 22<sup>nd</sup>  
Student Outreach mtg  
held at Trans Credit  
Union with 52  
students from  
WVTC & Chippewa  
Valley Tech. College.

**Membership**

As of March 31, 1996 the total membership count was at 95 members. An additional student chapter at Western Wisconsin Technical College accounts for 32 student members.

Year to date we have processed 19 new members and have approximately 25 in hand from the Trane Company Graduate Engineer Training Program. Most of these students move on to join local chapters around the country and around the world. Twice a year the membership committee presents ASHRAE to the Graduate Training class and typically signs up about 50 new members a year.

**Membership Committee**

The Membership Committee consists of our membership chair Steve Almos, of NSP and two individuals from Trane: Mike Byars and Bruce Anderson. The traditional Trane committee members take responsibility for the semi-annual training class presentations, membership from Trane Company employees, and the membership roster. The chair focuses upon membership from outside of Trane and advancements.

We are trying to streamline the process of applications, checks and change-of-address from the Trane training class new members, and are working with Trane accounting. Some improvement has been made this past year. A total of 24 of these had to be tracked down and processed this year. See attached.

We have several strong memberships from outside of Trane, but need to grow this area. Approximately 35% of the membership is outside of Trane. This will be one of the priorities for next year.

The committee chair will focus upon advancements next year, as this has been neglected in recent years. There are a number of simple advances that are in order, such as upgrades from associate members to full membership.

CHAPTER MAY NOT ACT FOR SOCIETY

## 1995-II Student Class memberships for ASHRAE

	<b>Name</b>	<b>date sent to Society</b>
1.	Jamin Jacob	11/17/95

We also attempted to time the publishing of the chapter news letter so that it arrived the week before the next regular meeting. This was done to act as a reminder of the upcoming meeting soon enough to plan to attend but not too early as to forget about the meeting. This also seems to have worked well.

### Major Accomplishments

- We have grown membership even over the large increase seen last year.
- National Engineers Week was heavily promoted this year with a Mayoral Proclamation and active participation's by several members as coaches and judges for Odyssey of the Mind.
- Donations were made to ASHRAE Research in the name of four deceased members who made major contributions to the local chapter and/or society.
- Additions were made to the already impressive historical archives maintained by chapter historian Jim Ritter.
- Research Promotions is well ahead of last year with the Officers meeting the Full Circle requirements.
- A new student chapter at Western Wisconsin Technical College was chartered this year. Both the faculty advisors and the student officers have been very energetic and proactive.

CHAPTER MAY NOT ACT FOR SOCIETY

FAX 608 787-2669

- The depth of support and backup on the committee level needs to be increased to help distribute the load and to act as resource for future chair people.
- While at least partially successful, the networking through members in the various businesses needs to be expanded on to help improve attendance. This is even more critical when we move locations around each month so that all members are aware of where to go. Broadcast fax mailings were tried with the BOG and were successful. Similar fax's might be used to member businesses in a for suitable for posting.
- We need to "toot our our horn" by soliciting more publicity for the things we already do. This may require either a new committee to handle properly or the direct assignment of that duty by the President to an individual.

### Summary

Thanks to the active support, under sometimes trying business and personal situations, of our Officers, Chairs and general members this has been a good year for the chapter. Not all went as planned but the momentum is in the right direction. Next years officers were among those most responsible for the successes of this year making next year a potentially great year!

Sincerely,

Forrest Moe

## Membership Committee Annual Report La Crosse Area Chapter

Steve Almos, Chairman

### Membership

As of ~~Sep.~~ <sup>Sep.</sup> 1, 1994, the total chapter membership count was at 131 members. This included 15 students. Year to date, we have 24 new members and 25 applications being processed. About 2/3 of the new members are from Trane Company. We are particularly pleased with the high number of non Trane Company new members.

We attribute the success of recruiting new members to the increase in meeting attendance. We feel this is due to the programs being offered and the meeting time change to the noon hour.

### Membership Committee

Unfortunately we lost our Membership Chairman early in the year. Steve Almos had agreed to take the position in March of 1995. Steve has agreed to retain the position through the 1995-96 year. Steve is working with the Program Chairman to continue the level of the meeting attendance and maintain our new membership growth.

CHAPTER MAY NOT ACT FOR SOCIETY

# **Membership Committee Annual Report**

## **La Crosse Area Chapter**

1996-1997

### Membership

As of March 31, 1997 the total membership count was at 132 members. Our student membership consists of the student chapter at Western Wisconsin Technical College which accounts for 21 student members.

Additionally we have approximately 30 members from the Trane Company Graduate Engineer Training Program. Most of these students move on to join local chapters around the country and around the world. Twice a year the members of the membership committee presents ASHRAE to the Graduate Training class and typically sign up a majority of the students.

### Membership Committee

The Membership Committee consists of our membership chair Steve Almos of NSP, Mike Byars of The Trane Company, and Kevin Schnack of NSP. Mike Byars takes the responsibility for the semi-annual training class presentations, membership from The Trane Company employees, and membership roster. The chair focuses upon membership from outside the Trane and advancements.

The process of applications, checks and change of address from The Trane Company training class new members has been streamlined. Mike Byars has provided a list of those students from the Trane class. See Attached.

We have several strong memberships from outside of Trane but need to grow this area. Approximately 35% of the membership is outside of Trane. As in the past, this is will be a priority for next year.

The committee chair will focus upon advancements next year. There are a number of simple advancements that are in order, such as upgrades from associate members to full membership.

## 1996-II Student Class memberships for ASHRAE

1.	Jesse Brown	May 24, 1996	040607
2.	Bruce Burkhalter	May 24, 1996	040604
3.	Chris Claude	May 24, 1996	040611
4.	Anthony Denk	May 24, 1996	040591
5.	Benjamin Gaviglio	May 24, 1996	040599
6.	Ryan Geister	May 24, 1996	040602
