ASHRAE
LA CROSSE AREA CHAPTER

The La Crosse Area Chapter of ASHRAE is celebrating its 16th anniversary in 1987. The very beginning was extremely exciting and stimulating. The years that followed that day of chapter approval on August 22, 1971 has certainly been an innovative challenge to all ASHREA members. The cheap energy of the early seventies followed by the fuel crisis in 1973 challenged the ingenuity of all ASHRAE members. The whole world looked to ASHRAE for the answers to the method of meeting the energy shortage impact. In the late seventies new energy standards were implemented and new design criteria were tested, approved and installed. The La Crosse area met the challenges of the new energy efficient design and implementation. The development of more economical energy management systems propelled the industry and commerce segment of our economy into well managed business enterprises. We look forward to the 1990s with a confident attitude that ASHRAE will lead the industry forward to new successes in total business management.

Since our first entry in 1983 for "History of the Chapter" the La Crosse area chapter has achieved many lofty results.

One of the projects that the La Crosse area chapter sponsors is SMILE which decodes to Student Members Interacting with Leading Engineers. Students at the area technical institutes work on projects all year and at the May meeting awards are presented to the projects that win the judges awards. These students are only those in their final year at the La Crosse and Eau Claire technical institutes.

To honor the first year students we have a project named FYRST. This decodes to First Year Review of Student Technicians. These projects are not as technical as SMILE, but the first year students develop incentives to do better work on their careers.

One of our members, Neil R. Patterson, P.E. was named a "Fellow of the Society" in 1984. He is continually active in ASHRAE on the national level. In addition to Neil, one other retired member, Clarence L. Ringquist, P.E. is a "Fellow of the Society."

Several of our chapter members are active on ASHRAE general committees as denoted in the following reprints.

Finally the La Crosse Area Chapter of ASHRAE has won the PAOE-President Award of Excellence every year since its chapter was approved. We look forward to the future as the electronic age tries to overpower us and we shall provide expertise to control the new breed of computers and over all automation so that the energy frontier is used to our greatest advantage.

Respectfully submitted,

James M. Ritter P.E.
Chapter Historian
La Crosse Area Chapter of ASHRAE
